Program History & Statistics

We do not stop playing because we grow old. We grow old because we stop playing. ~Anonymous, has proven to be a timeless observation. A famous American landscape architect, Frederick Law Olmsted, believed that the primary purpose of places like parks is to provide the best means of healthy recreation for everyone.

Since 1975, the population of Chester County has doubled. From 2000 to 2004, 25 percent of the population increase for the entire state occurred in Chester County. The increased population and rapid land consumption caused many to take action to preserve their quality of life by buying and building parks. With overwhelming voter approval in 1989, support for this County grant program remains strong.

Municipal Park Grant Program accomplishments through 2006 include:

- 3,208 acres purchased for 83 parks
- 114 parks built in 54 municipalities
- \$31 million in County funds invested
- Over \$60 million dollars leveraged in additional funding

Municipalities and land owning recreation authorities (such as the Kennett Area Park Authority) are eligible to apply for County funds through this program. Sites funded through this program are preserved through a declaration of covenants, conditions and restrictions recorded with the deed that stays with the land in perpetuity.

Each municipality is responsible for scheduling activities at their parks and maintaining the facilities that are funded through this program.

Program administered by:
Department of Open Space Preservation
601 Westtown Road, Suite 270
P.O. Box 2747
West Chester, PA 19380
Tel: 610-344-6285
Fax: 610-344-6515
