

VALLEY CREEK WATERSHED TECHNICAL COMPENDIUM

Prepared by
Chester County Water Resources Authority
Borton-Lawson Engineering
Skelly & Loy Engineers-Consultants

July 2004

Chester County Board of Commissioners

Carol Aichele
Andrew E. Dinniman
Donald A. Mancini

Funding Partners

The Chester County Water Resources Authority expresses its appreciation to those entities who provided financial support for the Valley Creek watershed assessment.

This project was funded by:

- Chester County Board of Commissioners
- Grant funding from Pennsylvania Department of Environmental Protection Growing Greener Grant Program

Disclaimers

The information, maps, and data presented herein were compiled by the Chester County Water Resources Authority (CCWRA), Borton-Lawson Engineering, and Skelly & Loy Engineers-Consultants. These information and data are provided for reference and planning purposes only and should not be used for any detailed engineering purposes. The authors make no claims as to the completeness, accuracy or currency of the provided data, and take no responsibility for use of these materials by others. This document is based on and presents the best information available at the time of preparation.

This project was sponsored in part by Growing Greener Grant ME#350481 provided by the Pennsylvania Department of Environmental Protection. The views expressed herein are those of the author(s) and do not necessarily reflect the views of the Department of Environmental Protection.

Acknowledgements

The Chester County Water Resources Authority, Borton-Lawson Engineering, and Skelly & Loy Engineers-Consultants would like to thank and acknowledge the persons, agencies and entities for their support in the development of the Valley Creek Watershed Technical Compendium.

Chester County Conservation District
Chester County Department of Computing and Information Services
Chester County Health Department
Chester County Planning Commission (Diana Gent)
Drexel University (Luanne Steffy)
GTS Technologies, Inc (Tom Graupensperger)
Green Valleys Association
Montgomery County Planning Commission (Drew Shaw)
Pennsylvania Department of Environmental Protection (Allen Whitehead, Donna Suevo)
Pennsylvania Department of Transportation
Pennsylvania Fish and Boat Commission
University of Maryland, Baltimore County (Claire Welty)
U.S. Environmental Protection Agency (Kelly Chase)
U.S. Geological Survey (Drew Reif, Kirk White)
Valley Creek Restoration Partnership
Valley Creek Trustee Council (Chuck Marshall)
Valley Forge Chapter of Trout Unlimited (Pete Goodman)
Valley Forge National Historical Park
Villanova University (Clay Emerson)

Table of Contents

Part A: Project Description

Purpose	1
Valley Creek watershed – an introduction.....	1
The regional setting	2
Trends within the watershed over the past 40 years	5
Challenges facing the watershed	6
Framework for meeting those challenges	6
Objectives of this watershed assessment	7
Organizations and Stakeholders Throughout the Watershed.....	7
Municipalities	8
Chester County agencies	8
Valley Creek Restoration Partnership	8
Valley Creek Coalition.....	9
Valley Creek Trustee Council	9
Valley Forge National Historical Park (VFNHP).....	9
Universities.....	10
Utilities	10
State Agencies	10
Federal Agencies	11
Watershed Characteristics	11
Hydrologic Cycle Components	11
Water Budget.....	11
Surface Waters.....	12
Stream Classification.....	15
Growth and development patterns	15
Population.....	15
Land Use.....	16
Impervious Cover	20
Geology	21
Soils.....	22
Topography.....	27
Conclusions	26

Part B: Water Quality Assessment

Introduction	31
Exceptional Value Designation	31
Hydrologic Conditions	35
Precipitation.....	35
Stream Flows	37
Ground Water	38
Limestone Quarries	41
Flooding.....	42
Significant Contaminated Sites.....	45
Paoli Rail Yard Site	45
Malvern TCE (Chemclene) Site	46
Foote Mineral Co. Site.....	46
Knickerbocker Landfill.....	47
Ground Water Quality	48
Impacts from Significant Contaminated Sites	48
USGS Investigations.....	49
Drexel University Data.....	49

Surface Water Quality.....	50
U.S. Geological Survey water quality sampling sites.....	50
Chester County Health Department Stream Sampling Program.....	53
Alkalinity.....	54
Ammonia.....	56
Boron.....	59
Chlordane.....	61
Chloride.....	62
Dissolved Oxygen.....	65
Fecal Coliform Bacteria.....	68
Hardness.....	70
Metals.....	71
Nitrite + Nitrate.....	72
pH.....	74
Phosphorus.....	76
Polychlorinated Biphenyls (PCBs).....	79
Sodium.....	80
Specific Conductance.....	84
Total Dissolved Solids.....	86
Total Suspended Solids.....	88
Water Temperature.....	90
USGS Synoptic Sampling Program.....	93
PADEP “Impaired” Streams.....	101
Benthic Macroinvertebrate Diversity.....	103
USGS Brillouin’s Diversity Index (1973 to 196).....	104
Hilsenhoff Biotic Index 1973 to 2003.....	105
USGS Year 2000 Synoptic Sampling.....	108
Fish Communities.....	112
Valley Creek Trustee Council’s Assessment.....	112
Drexel University Data.....	112
National Park Service Data.....	113
Visual Habitat Assessments.....	113
PADEP Assessment (1998-1999).....	115
USGS Assessment (October 2000).....	117
Valley Creek Trustee Council Assessment (May 2002).....	118
CCWRA Assessment (February – March 2002).....	119
Comparison of Visual Habitat Assessments.....	120
Visual Habitat Assessment Conclusions.....	125
Conclusions – Water Quality Assessment.....	126

Part C: Fluvial Geomorphology Assessment

Introduction.....	131
Background.....	131
Watershed Assessment Methodology.....	132
Desktop Survey Stream Classification Effort.....	132
Cruised Reach Field Assessment.....	133
Measured Reach Field Assessment.....	139
Measured Reach Sites.....	139
Expanded Measured Reach Sites.....	140
Stream Classification Results.....	140
Cruised Reach Results.....	140
Measured Reach Survey Results.....	147
Category 1 (Unstable Expanded Measured Reach) Results.....	147
Category 2 (Unstable Measured Reach) Results.....	154
Category 3 (Stable Measured Reaches) Results.....	155

Category 4 Results	155
Regional Curves for Valley Creek.....	156
Prioritization of Sites	163
“No Action” Alternative.....	170
Conclusions	171
Part D: Overall Assessment Recommendations	
Introduction	173
Stormwater Runoff Reduction.....	173
Hydrologic Conditions and Instrumentation.....	173
Surface Water Quality Monitoring	174
Biological Monitoring	174
Significant Contaminated Sites.....	174
Stream Channel Geomorphology	175
Protection and Preservation of Riparian Corridors.....	175
Address Sites Unrelated to Stormwater Management	175
Address Sites that have Significant Resources at Risk.....	176
Periodic monitoring of stream channel conditions	176
Monitoring of completed restoration projects	176
Conduct watershed-wide visual habitat assessment	176
Utilize educational outreach to build public support	176
Prioritize Reaches that Contribute High Sediment Loads	177
Project Selection.....	177
Stream Restoration Design	177
Municipal Implementation of Watershed Restoration.....	178
Priority Group 1: Project Descriptions, Contributing Causes, and Conceptual Restoration	
Approaches.....	178
Reach 005 (Valley Creek between Route 202 & Church Road)	179
Reach 006 (Valley Creek immediately downstream of Church Road).....	182
Reach 012 (Valley Creek Adjacent to the Knickerbocker Landfill).....	182
Reach 021 (Valley Creek immed. downstream of N. Valley Road).....	184
Reach 027 (Valley Creek adjacent to Route 252 upstream dam)	184
Reach 030 (Valley Creek next to Washington’s Headquarters).....	186
Reach 700 and 701 (Unnamed tributary to Valley Creek)	186
Reach 1102 (Cedar Hollow Road tributary).....	187
Reach 1503 (Crabby Creek upstream of Route 252).....	187
Reach 1900 (Unnamed tributary to Valley Creek east of Mill Road)	189
Reach 2103 (Lower Reach of Wilson Run).....	189

Appendices	
Appendix A. Potential Funding Sources	
Appendix B. Fluvial Geomorphology Data Sheets	
Appendix B-1: Cruised Reach Stream Survey Results	
Appendix B-2: Erosion Points Descriptions & Photos	
Appendix B-3: Stream Visual Assessment Protocol Summary	
Appendix B-4: Unstable Expanded Measured Reach Sites (Category 1 Sites)	
Appendix B-5: Unstable Measured Reach Sites (Category 2 Sites)	
Appendix B-6: Stable Measured Reach Sites (Category 3 Sites)	
Appendix B-7: Stable Expanded Measured Reach Sites (Category 4 Sites)	
Appendix B-8: Annual Peak Flow Frequency Analysis – Valley Creek near Valley Forge	
Appendix B-9: Morphological Summary Table	
Appendix C. USGS Biological Monitoring Data
